***Election/Restrictions***

1. Claims 1,2,7-9,13,14,16,17,19-24,28,31-33,36,38 and 39 are generic to a plurality of disclosed patentably distinct species comprising species 1 embodied in claims 3 or 4; species 2 embodied in claims 5 or 6; species 3 embodied in claims 10 or 11 or 12; species 4 embodied in claims 15 or 18; species 5 embodied in claims 25 or 26 or 27; species 6 embodied in claims 29 or 30; species 7 embodied in claims 34 or 35 or 37. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed. Applicant must choose one claim from each species. For instance Applicant can chose the permanent magnet from species 1, the stationary magnetic flux sensor from species 2, the integral spring members from species 3, the encapsulant for isolating the electronics from species 4, the member to position the magnet toward the center axis from species 5, a pivoting float from species 6 and the encapsulant from species 7.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the

evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
